

Title: Masterclass in the Philosophy of Mathematical Practice with Karine Chemla in Brussels on May, 17-19

Masterclass in the Philosophy of Mathematical Practice
with
Prof. Dr. Karine Chemla
May, 17-19
Vrije Universiteit Brussel
Brussels, Belgium

The Centre for Logic and Philosophy of Science (CLWF) of the Vrije Universiteit Brussel (VUB) will host its Second Masterclass in the Philosophy of Mathematical Practice on May, 17-19, with Prof. Dr. Karine Chemla (SPHERE, Université Paris 7 - CNRS, France). The Masterclass will be composed of three lectures, the tentative titles of which are as follows:

Lecture 1 (Thursday, 17/5): *Practices of Generality in the Mathematics of Ancient China and Beyond*

Lecture 2 (Friday, 18/5): *Working with Diagrams, Interpreting Diagrams. Views Based on Chinese Sources*

Lecture 3 (Saturday, 19/5): *The Practices of Abstraction and their Interpretations in the Mathematics of Ancient China*

We intend the Masterclass to be a fully interactive event, with the twofold objective to understand in depth the materials presented in the lectures, and to provide early career researchers (PhD students and Postdocs) with an opportunity to discuss their ongoing work in a helpful and constructive environment. The lectures by Prof. Chemla will take place in the mornings, and will be followed by afternoon sessions with presentations by early career researchers in the History and Philosophy of Mathematical Practice.

Call for Abstracts

We invite early career researchers who would be interested to present their work to send us an abstract of at most 1 page by **April, 20th**. Please submit your abstract, including your affiliation information, by sending it to the following email address: masterclass.pmp.bxl@gmail.com. The talks will be of a duration of around 20 minutes (not including discussion). Notification of acceptance will be sent out by April, 25th. Notice that submitting an abstract is not mandatory for attending the Masterclass.

Attendance Fees and Registration

We ask people to register to the Masterclass by **May, 1st**, but there will be no attendance fees for the event, and attendance of the Masterclass is open to everyone interested. If you are planning to attend the Masterclass, please register by sending an email to: masterclass.pmp.bxl@gmail.com.

Location

The Masterclass will take place at the Vrije Universiteit Brussel (VUB) on the Etterbeek campus, which is situated in Brussels, Belgium.

Organizers

The Masterclass is organized by Line Andersen, Sven Delarivière, Joachim Frans, Yacin Hamami, Colin Rittberg, Yannick van den Abbeel, and Nigel Vinckier.

Contact Information

For any questions, please contact the organizers by sending an email to: masterclass.pmp.bxl@gmail.com.

Acknowledgements and Supports

The Masterclass is supported by the Strategic Research Program entitled “Logic and Philosophy of Mathematical Practices” of the Vrije Universiteit Brussel (VUB), the Doctoral School of Human Sciences (DSh) of the VUB, and the Association for the Philosophy of Mathematical Practice (APMP).
