
APMP NEWSLETTER

Vol. 7, August 2023

Welcome!

This is the latest edition of our *Newsletter*, which aims at providing some general information about activities of the APMP. The general motivation is to communicate activities of the APMP to all members, to inform about upcoming events related to the philosophy of mathematical practice, and to foster and support our community.

Jessica Carter — on behalf of the Directive Committee

PMP on Facebook and Twitter

In addition to the distribution list, the APMP has a Facebook page and a Twitter account where we announce events and write about PMP-related content. If you would like us to post something on these, please write to Gisele Secco gisele.secco@gmail.com for Twitter and to Brendan Larvor, B.P.Larvor@herts.ac.uk for Facebook.

Conferences, workshops, and meetings

APMP conference

- *The 7th International Meeting of the APMP* will be held at the School for Advanced Studies IUSS Pavia, Italy on **June 18–21, 2024**.

A call for papers has been sent out; deadline for submission is **December 15, 2023**. Invited speakers are:

Karine Chemla (SPHERE - CNRS, Paris, France)

Kenny Easwaran (Texas A & M, USA)

Eduardo Giovannini (CONICET and Universidad Nacional del Litoral, Argentina)

Juliette Kennedy (University of Helsinki, Finland)

Fenner Tanswell (Technische Universität Berlin, Germany)

- *1st Conference of the European Society for the Philosophy of Mathematics* will take place on **5–7 September 2023** at King's College in London. More information can be found at <https://philmath.eu/2023conference/>
- *The Fifteenth French Philosophy of Mathematics Workshop* will be held on Wednesday **18 October – Friday 20 October 2023** in Paris, France at the Panthéon-Sorbonne and Paris-Cité Universities. The invited speakers are

Paola CANTÙ (CNRS, Aix-Marseille Université)

Antoine CHAMBERT-LOIR (Université Paris Cité)

From the recent CLMPST meeting in Buenos Aires, Argentina that was attended by many members of the APMP. The APMP was accepted as a member of the DLMPST/IUHPST in 2019.

Juliette KENNEDY (University of Helsinki)

Brendan LARVOR (University of Hertfordshire)

Øystein LINNEBO (University of Oslo)

- *Conference at Chapman University in January 2024: Is Philosophy Useful for Science, and/or Vice Versa?*

The international conference will take place at Chapman University from **January 30 to February 2, 2024**. This inaugural conference of the MPP graduate program (D.Sc. in Mathematics, Philosophy and Physics) is organized by Marco Panza, Thomas Pradeu, and Dean Michael Ibba, who will gather an outstanding group of prominent scientists and philosophers of science whose presentations will explore the issue of how philosophy and science can learn from each other and cross-fertilize. The topics and tools, as well as the successes and failures of a reconnection between philosophy and science will be examined and discussed.

- *The APMP will be present at the World Congress of Philosophy to be held in Rome, 2024.*

The APMP is planning two events for the World Congress of Philosophy that takes place in Rome on **August 1 – 8, 2024**. A symposium titled ‘Epistemic injustice within and across borders: mathematics and philosophy’ organised by Brendan

Larvor and Gisele Secco in collaboration with SPHERE has been accepted. We are further planning a society session. More information will follow in the next newsletter.

Seminar series

- The Orange County and Inland Empire (OCIE) organises monthly seminars in the History and Philosophy of Logic and Mathematics. They will continue in a hybrid form: <https://faculty.ucr.edu/~reck/OCIE-Group.html>
- The Philmath seminar at the IH-PST. Information about the seminar series can be found here <https://ihpst.pantheonsorbonne.fr/recherche/seminaires>.
- The Canadian Society for History and Philosophy of Mathematics (CSHPM) continues its online colloquium series. See here for information: <https://www.cshpm.org/meeting/CSHPMOnlineColloquium.php>

Graduate Program

Opening of new graduate program in Mathematics, Philosophy, and Physics (MPP) at Chapman University

The new D.Sc. program in Mathematics, Philosophy, and Physics begins in the Fall 2023 semester at Chapman Univer-

sity. Offered by the Schmid College of Science and Technology, the MPP Program is an innovative post-master's-level, cross-disciplinary research doctoral program focusing on the foundational pillars of the sciences. Following traditions dating back to Plato, the program emphasizes the fundamental relationship between mathematics, philosophy, and the physical sciences. Marco Panza, Program Director, has developed and co-founded the program with other Chapman faculty members from each representative department of Mathematics, Philosophy, and Physics, and will begin teaching, advising, and supervising doctoral research in Fall 2023. The program looks forward to welcoming its first cohort in late August. Further information can be found on the program's website: <https://www.chapman.edu/scst/graduate/dsci-mpp.aspx>

Preprint Archive

An underused resource is the *PhilMath Archive*, which is an electronic archive tailored to and run by philosophers of mathematics, sponsored by the APMP as well as the International Association for the Philosophy of Mathematics (PMA), the Canadian Society for the History and Philosophy of Mathematics (CSHPM), The British Society for the History of Mathematics (BSHM), the Philosophy of Mathematics Special Interest Group Mathematical Association of America (POMSigma).

We encourage our members to post preprint versions of their papers at: <http://philsci-archive.pitt.edu/philmath.html>

In addition, we also encourage to use the category "Mathematical Practice" when tagging your papers in the *PhilPapers* archive at <https://philpapers.org>

About the APMP

Founded in 2009, the Association for the Philosophy of Mathematical practice aims to support research in philosophy of mathematics related to mathematical activity, past and present.

Election results

The election for members to the Directive Committee was conducted during March 2023. The following candidates were elected: Silvia De Toffoli, José Ferreirós, Karen François, Valeria Giardino, Paolo Mancosu and Marco Panza. I thank all the candidates for their willingness to serve. Thank you also to those of you who voted.

The new Directive Committee consists of the following members:

Carmen Martinez Adame (UNAM, Mexico)

Jessica Carter (University of Aarhus, DK) – President

Silvia De Toffoli (School for Advanced Studies IUSS Pavia, Italy)

José Ferreirós (University of Sevilla, Spain)

Karen François (Vrije Universiteit Brussel, Belgium)

Valeria Giardino (CNRS, Institut Jean Nicod, Paris, France) – Secretary

Jemma Lorenat (Pitzer College, USA)

Paolo Mancosu (University of California, Berkeley, USA)

Marco Panza (Chapman, USA and CNRS (IHPST), Paris, France)

Dirk Schlimm (McGill University, Canada)

Gisele Secco (Cal State San Bernardino, USA)

Bart Van Kerkhove (Vrije Universiteit Brussel, Belgium)

The renewed Steering Committee consists of Carmen Martinez Adame, Jessica Carter (President), Valeria Giardino (Secretary), and Paolo Mancosu.
